"I view F1 in Schools as a turning point in my life and for that I will always be grateful"

"F1 in Schools taught me to manage a project, divide tasks, finish them on time, work effectively as a team and cooperate with other people"

"If someone told me 6 years ago, when I first heard about the competition, what I would have seen and done up till now, I would never have believed them."

Post F1 in Schools STEM Challenge

Having just been admitted to the Massachusetts Institute of Technology to follow a Graduate Program in Aeronautics and Astronautics, Akis could not feel more optimistic for the future

"F1 in Schools was particularly valuable asset in my CV"
