

## CASE STUDY

### Craig Watson

20 year old from Aberdeen, Scotland

#### F1 IN SCHOOLS STEM CHALLENGE

F1 in Schools offered Craig a kick-start to his engineering career. Craig is not only an avid F1 fan, but is now well on his way to becoming an F1 designer.

"F1 industry is somewhere I love working & get a lot of enjoyment out of."

#### Post F1 In Schools STEM Challenge

Craig completed a degree in Software Engineering at Edinburgh University

Year-long work placement at Infinite Red Bull Racing working in Composite Design.

*"During this time, I've honestly learned a massive amount. I've developed a much deeper understanding of how all the arts in an F1 car work"*

*"F1 in Schools showed me that there were certain jobs that I really enjoyed doing and that Formula 1 would be somewhere that I would love to work. It gave me more confidence."*

#### Advice to F1 in Schools students:

*"Put as much effort into your team as you possibly can and do something that will impress the judges."*
