

CASE STUDY

Mark Nanney

F1 IN SCHOOLS STEM CHALLENGE 2010 & 2011

World finalist representing Australia

"I thank F1 in Schools for giving me the opportunity to have a chance at working in such an amazing industry."

Post F1 in Schools STEM Challenge

2013-2014 McLaren

Working within the aerodynamic design department, designing parts for wind tunnel model.

"Every day I learned something about proper CAD techniques"

"It was an amazing learning experience"

F1 in schools had a huge impact on Mark's career plans. After working in Formula 1 he has changed his plans. He now intends to work designing Formula 1 cars.

"Because of F1 in Schools I have a lot more choices to make. Thankyou F1 in Schools for giving me this opportunity to work in such an amazing industry"
